Return Material Authorization Request

Entire form must be completed before an RMA number is assigned.

Eastech Flow Controls 4250 South 76th East Avenue Tulsa, Ok. 74145 (918) 664-1212 Fax: (918) 664-8494

****RMA:

(Assigned by Factory)

For Eastech to accurately evaluate returned equipment, all electronics and sensors must be included with each shipment. Therefore, disassembled units or component parts can not be returned for evaluation.

Please ensure all packages are clearly marked with RMA number. Failure to do so will result in possible loss or rejection of goods.

TCGGOTT TOT TCCGTTT (FTOVIGE & detailed description of problem)		

All products must be properly cleaned prior to shipment. The Declaration of Hazardous Material and Decontamination documentation provided must be completed and returned with all equipment.
All products are shipped UPS ground unless otherwise specified herein:

Declaration of Hazardous Material and De-contamination

In compliance with legal requirements outlined by the DOT and OSHA and for the safety of our employees, Eastech requires a signed "Declaration of Contamination" prior to the handling of returned equipment by our factory personnel. This form must be included with your Material Safety Data Sheets (also required), Shipping Documents and Specific Handling Instructions (when applicable) on the outside of each box. Please reference the Return Material Authorization Number (RMA#) obtained from Eastech Flow Controls on all paperwork and mark the RMA number CLEARLY ON THE OUTSIDE OF BOX. If this procedure is not followed, it may result in refusal of shipment upon delivery at our facility!

PLEASE FILL OUT COMPLETELY FOR SAFETY PURPOSES

Please mark appropriate warnings and remember to attach the MSDS:
